INDEXA Industrial Rack Clamps

For various engineering and maintenance applications across all industrial sectors. A bright yellow epoxy coating gives the sliding jaw and J-bar added protection, preventing significant deterioration and prolonging the working life of the working parts.

Features: Spring loaded jaw that stays in position when pressure removed. Jaw moves to securely clamp angled surfaces. No long screws to bend. Tightening the clamps does not impose rotation to the workpiece.

- Applications:**
- Metal fabrication
 - Welding
 - Machining
 - Site maintenance
 - Moulding box and die holding
 - Toolroom
 - Plastic and fibreglass moulding
 - Plate fabrication
