

# HARDWARE CHAIN

Hardware chain is ideally suited for most D.I.Y. and general purpose applications. The chain is available in sizes 3,0mm to 10,0mm diameters and is supplied in measured 30m lengths or in full drums.

# McKinnon Chain

McKinnon offers a full range of hardware chain in different finished conditions which includes Zinc electroplating with clear passivation, natural or hot dipped galvanized finishes. Hardware chain is not ideal for lifting applications, but is typically used for security and general purpose applications.

# GENERAL PURPOSE CHAIN

GRADE 3 HARDWARE CHAIN					
COMMODITY	DESCRIPTION	DIAMETER	PITCH (P)	W1	APPROX MASS KG/M
		(DN) NOM	NOM	MIN
